For additional information

We invite you to join us for an engaging & interactive event where we will learn how to look at our communities as places of great assets!

ASSET BASED COMMUNITY DEVELOPMENT (ABCD) is a powerful approach to community development that focuses on discovering and mobilizing community assets (resources). ABCD emphasizes:

EVERYONE HAS GIFTS. With rare exception people can contribute and want to contribute. Gifts must be discovered. Gift giving opportunities must be offered. Strong communities know they need everyone. There is unrecognized capacity and assets in every community. This workshop will help you find it.

RELATIONSHIPS BUILD A COMMUNITY. See them, make them, and utilize them. An intentional effort to build and nourish relationships is the core of ABCD and of all community building.

CITIZENS AT THE CENTER can engage the wider community. People in leadership in everyday life (associations, congregations, neighborhoods, and local business) must be at the center of community initiatives rather than just helping agency leaders.

Who Should Attend? Representatives of Community Based Organizations, local public health staff, local and regional community development organizations and local government (i.e. county commissions/city councils).
